

iPrescribe Registration Steps

1. Download iPrescribe via Apple App Store or Google Play.
2. After download, tap “Sign Up” on the log in screen.
3. Follow the prompts to identity-proof with IDme. You will need your driver’s license.

You are now ready to send prescriptions for non-controlled drugs! 🎉

EPCS Upgrade- A two step process detailed on next two slides:

1. Confirm mailing address
2. Receiving EPCS Entry code and enter the code into iPrescribe

iPrescribe Registration Steps-EPCS

Starting the EPCS Entry Process:

1. Tap the menu button in the top left corner
2. Tap “Enroll Now” in the menu
3. Review the steps and tap “Get Started”
4. Review the mailing address. If you have access to that address tap “Yes, send me a mailer code” button
 - a. If you do not, you will need to update your profile with the DEA
5. Sit back and wait for your mailer! In the meantime, you can write non-controlled drugs using iPrescribe

iPrescribe Registration Steps-EPCS

Finishing the EPCS Entry Process:

To finish the EPCS Entry process, users will have to scan or enter the code provided on in the mailer by following these steps:

1. Once you have received your mailer, log in to iPrescribe, tap the menu button in the top left corner
2. Tap “Controlled Rx” in the menu
3. Choose if you’d prefer to scan the QR code or type the code in manually
4. If choosing the QR code, you’ll need to give iPrescribe access to your camera
5. If using the QR code, align the view of the camera with the QR code on the mailer. If you entering the code, enter the code manually
6. Once successfully scanned, enter your password and the six digit number from your token – and you’re done! You are now able to write controlled substance prescriptions with iPrescribe.
